Unhappy Women!

No woman can be happy when her health is undermined. No woman can have good health while she suffers from female weakness, inflammation, ulceration or any disease of the delicate womanly organs. Nervous, sleepless, fretful, suffering in body and mind, she does not live but only exists.

More than a half a million such women have found a perfect and permanent cure for their diseased condition in the use of Doctor Pierce's Favorite Prescription. Women cured by this remedy say it is a "wonderful medicine," so perfectly does it restore them to health and comeliness.

There is no alcohol in "Favorite Prescription," neither does it contain opium, cocaine, nor any other harmful drug. It is in the strictest sense, an honest, temperance medicine. Its ingredients are purely vegetable, and it will agree with the most delicate constitution.

☞ Don't be hypnotized, or over persuaded, into accepting a substitute. This medicine has a record that's worth far more than any difference in price.

Sick and ailing women are invited to consult Dr. Pierce, either personally or by letter, absolutely without charge or fee, thus avoiding the unpleasant questionings, offensive examinations and obnoxious local treatments considered necessary by many local practitioners. All correspondence treated as strictly private and sacredly confidential. Write without fear and without fee to Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol
Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

WILL CONTINUE WAR.

The reform leaders, in Russia, having received convincing information from Peterbof that the Czar is determined to continue the war owing to Gen. Linevitch's optimism, have notified his majesty of their conviction that peace ought to be secured. They regard themselves as a regularly constituted opposition to the existing government, and accordingly register their disapproval of the decision of his majesty's present advisers.

The general staff has indicated the nature of the campaign that it is expected will be carried on as soon as the rains in Manchuria are over. Gen. Linevitch has abandoned the idea of assuming the offensive, and has completed arrangements for a stubborn defensive, possibly fighting a retrograde campaign and utilizing the positions he has already prepared by falling back on them. He has telegraphed that he is confident that he can wear out the enemy.

The London Daily Telegraph's Japanese correspondent at Moji comments upon the tremendous extent of Gen. Linevitch's command, including, as it does, Vladivostok and northern Korea, and doubts the Russian general's ability to have effective control of such a far-extended line, which is unprecedented in the history of the world. He declares that the coming battle, unless it is averted by peace negotiations, will be on such a gigantic scale as to decide the war once and for all.

Japan has apparently a fixed and firm determination not to relinquish her hold on Manchuria, no matter what contingencies arise as a result of the pending peace negotiations. At least this is the construction put on the hasty and secret preparations now going forward for the building of the extension of the railroad which now runs from Fusan, on the southeast coast of Korea, to Seoul, and which it is planned to take across the Yalu for 150 miles into Manchuria, joining the Chinese Eastern Railway probably at Liaoyang. Rush orders have been placed in the last few days with American firms and corporations for the material for the road. This material includes 350 steel bridges, 150 locomotives and 2,000 cars. The striking feature of the enterprise is the secrecy that has been observed in placing the orders and for the delivery of the bridges and rolling stock at the point nearest to that where they will be used. Delivery is to be made overland, and, although the saving in time can hardly exceed three weeks, a threefold outlay in the way of freight bills seems not to have deterred the Japanese government from adopting that method of transportation.

The United States Steel Corporation, it is said, has obtained the contract for the 350 bridges, mostly small structures, the cost totalling $500,000, while the Baldwin Locomotive Works has the contract for 150 locomotives of the small, narrow gauge type. The locomotives will cost $2,225,000. The cars ordered are to be of steel, there being two contracts awarded, each for 1,000 cars, the total cost being $2,000,000.

Two Negroes Lynched.

Kid George and Ed Lewis were lynched in Hattiesburg, Miss., last night by a mob of no less than 1,000 men. The lynching was conducted in an orderly manner. About 9 o'clock yesterday morning J. G. Smith, sixty-eight years old, a white guard over the city convicts, was assassinated by two negroes, Neil Horn and Kid George of the gang. The plot to murder the guard was hatched in the city jail Thursday night. After the crime it was found that George and Horn had gone to the home of Ed Lewis, a notorious negro divekeeper, who, with two women, cut the shackles from the assassins. Yesterday afternoon, while trying to run the yellow fever quarantine lines, a soldier shot at George, the ball cutting off his ear, and he was jailed, with Lewis, while several hundred people scoured the country and swamps below for the negro Horn. A special train was run south to head him off, but the negro escaped. Last night fully 1,000 men gathered, broke into the city jail, and, after a desperate struggle with the negroes, who fought every inch of ground, dragged them out and hanged them on a bridge. Several wanted to burn them and started a fire, but this was put out by others. While the men were dangling at the end of ropes, several shots were fired, after which the mob dispersed. The two women were not harmed. The surrounding country is being searched for the other negro.

Perfection Mosquito and Fly Canopies.

Why be annoyed by mosquitos and flies when it can be prevented by a very small expense and no trouble?

We call special attention to the fact that the "Perfection" 5-coil canopy springs have been THOROUGHLY TESTED in tension, action, power and endurance, and found that they will lift any grade new net to a perpendicular position against the head board, and will also undergo the strain of being fastened down, day and night, continuously for many months without showing signs of weakness, when properly adjusted. They are small in diameter; noiseless in operation; look neat and pretty; are not clumsy nor in the way; are strong and durable, and the most perfect canopy springs ever put on the American market.

Made in all sizes and can be adjusted to either metal or wood beds.

Have us put one up for you, and after one week's trial if not entirely satisfactory we will take it down and refund your money.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, AUG. 5, 1905.

SOME PREACHERS in a neighboring city are not inclined to accept wholly the theory of an English scientist that drowsiness of church members during the delivery of sermons is due to bad ventilation of the church buildings and not to duliness of the discouses from the pulpit. With manly candor they say the sermon has much to do with drowsiness, and they refuse to cast the whole burder on bad ventilation. One gentleman of the cloth said that the man who works daily is often upon the Sabbath weary from his week's toil. When the sermon is argumentative or contrary to his views he loses interest and then assumes the somnolent air. The preacher must study his congregation. He has various types of individuals and must suit his sermon to their taste. Some persons cannot concentrate their attention upon an argumentative discourse. One minister said he was of the same opinion of Rev. Henry Ward Beecher that when persons are seen sleeping in the congregation it is time to watch the preacher. The preacher must suit the language of his sermon to the hearers. The reverend gentleman added these words: "When the sleeping is clearly manifested it is generally due to an ill-prepared sermon." Another clergyman expressed himself as follows: "Preachers are accused of having sleepers in their congregations because it is said parishoners know what is coming. Speaking of long sermons, there was a preacher in our diocese who often spoke over an hour. The congregation presented him with an hour glass. The hour glass was placed beside him, and when the hour was sped and the sermon was still being delivered he merely took the glass and turned it over. This was the last time the glass was used."

ACCORDING to the Washington correspondent of a Baltimore newspaper, the republicans of Virginia are dreaming of electing a governor next fall. Considerable stress is laid upon the fact that a contest is being waged in the democratic camp between admirers of Governor Montague and the friends of Senator Martin, which they imagine will cause lethargy among the supporters of the candidate who emerges second-best in the race. A great deal is also made of the present conditions surrounding the democratic party of Virginia by the entry into the arena of three candidates for governor. It will be remembered that four years ago similar hullucinations pervaded the republican ranks when the struggle between Mr. Claude M. Swanson and Mr. A. J. Montague for the governorship was at its height. It was gravely announced on the stage of the Opera House in Alexandria at a republican meeting that the late J. Hampden Hoge, a former democrat who had changed his coat, would be chosen governor of the Old Dominion. He passed into a total eclipse at the election which followed, the friends of both Swanson and Montague vieing with each other in rolling up an overwhelming majority for the latter. It does not require a prophet nor the son of a prophet to make a forecast for next November.

CHARGES that the Bureau of Animal Industry in the Department of Agriculture has been acting in conjunction with the beef trust to crush out competitors of that organization, by refusing to furnish inspectors to pass upon the products of independent packers, form the latest and most sensational developments in the graft scandal. Two cases are cited where independents were compelled to go out of business because the Bureau of Animal Industry refused to inspect the meat upon the ground that the appropriation for inspection had been exhausted, and the inspectors were all engaged at the various packing plants controlled by the trust. The Chief of the Bureau of Animal Industry denies there has been any collusion between his employees and the trust. Still, the matter has an ugly look, and Secretary Wilson announces that he will await a thorough investigation before expressing any opinion. It would seem that Secretary Wilson is so "easy" that he has at least been hoodwinked by most of his department chiefs.

IN A SPEECH at Dorchester, Mass., last week, Attorney General Moody said that with the approval of the President he had thought it best to give a brief review of the proceedings against the beef packers. He said that on March 20 last the grand jury at Chicago began an investigation to see if the injunction forbidding alleged trade conspiracies of the packers was being observed. This resulted in an indictment with ten counts against various individuals, July 1. He hoped that these would be brought to trial during the present year, but that judgment should be suspended, inasmuch as the acts of the grand jury were the result of an ex parte investigation. All of which would lead a layman to believe that Mr. Moody will prosecute a case which he hopes to lose.

THE United States, it now appears, will be drawn inevitably into the tariff war with Germany. But this should cause no surprise. The United States started the tariff war against all other nations and must take the consequences.

From Washington.

[Correspondence of the Alexandria Gazette.]

When the peace conference at Portsmouth is over M. Witte, senior Russian peace plenipotentiary, will undoubtedly confer with the government of the United States to arrange, if possible, an amicable settlement of the tariff differences existing between this country and Russia. It was learned today that M. Witte has come to this country on a two-fold mission: the negotiations with Japan, and secondly, for the purpose of adjusting the tariff war which has been in progress between the United States and Russia for three years. It is understood that Russia is now more than anxious to reach an agreement with the United States, and that M. Witte is here for that purpose and to negotiate peace terms with Japan. The United States is also anxious to settle its miniature tariff war with Russia, but, unless the the law is changed, it will not be possible to admit Russian bond-aided sugar on the same basis as sugar imported here from other countries. There is reason to believe from reports received by the State Department and by the Department of Commerce and Labor that M. Witte will have some important suggestions to make whereby the differences between the two countries can be settled so that Russian sugar may enter the United States on the same basis as other sugars, and the prohibitive duty on American machinery levied by Russia will be removed.

Reports continue to reach the war Department about atrocities practiced on the innocent natives of Samar by the Philippines of the island who are opposing American domination. In several instances natives who have disregarded the commands of the "pulajanes" have been captured and beheaded. On one occasion one of the cutthroats seized his own sister-in-law and because she sympathized with the American authorities, he severed her right leg and cut away half of the left side of her face. Another Americanista captured by outlaws, was brought before the chief, who ordered that his head be wrapped in an American flag. First his lips were cut off, then oil was poured over the flag and the flag ignited. The unhappy victim, a human torch, was then driven out into the highway and headed back toward his home town.

The charge d'affaires of the French Embassy in this city has informed the State Department that an International Dairy Congress will meet at Paris in October next. The French Parliament, says the charge in his communication to the Department of State, has evidenced its interest in the Dairy Congress by voting a liberal appropriation for the meeting. The United States is officially asked to send a representative or representatives to the Congress.

The higher civilization of the province of Occidental negroes in the Phillipines is made manifest through information received here to the effect that 15 native treasurers of that district are in the clutches of the law because of shortages in their accounts aggregating 10,000 pesos. One escaped, one was fined, one suspended, three were sent to prison and 10 are awaiting trial.

The Isthmian Canal Commission headquarters today received a cablegram from Governor Magoon of the canal zone reporting one additional case of yellow fever in the zone, one Rafaelo Badolato, an Italian employee at Panama, who was taken sick on July 30th. According to dispatches received from officials of the canal commission the sanitary conditions on the isthmus are rapidly improving and it is believed that eventually yellow fever will be entirely stamped out there.

The leading Spanish paper of the Phillipines, El Commercio, published in Manila, is authority for the statement that Col. Clarence R. Edwards, chief of the Bureau of Insular Affairs, War Department, stands a good chance of succeeding General Wright as governor general of the islands.

The State Department has received a report from United States Consul General Wilber at Singapore, China, in which he says that the Singapore Chinese merchants passed a resolution on June 30 approving the action of the Shanghai Chamber of Commerce boycotting American goods until some satisfactory agreement was made by the United States to admit into this country certain classes of Chinese citizens. This meeting of the Singapore merchants was held on Tuesday, June 20, in the Chinese Hospital, over 200 representative Chinese merchants being present. Mr. Wilber says in his report that it is too early to know what effect this action will have on American trade.

The funeral of the late Caleb C. Willard took place this evening at 3 o'clock at the Church of the Epiphany on G street, between Thirteenth and Fourteenth streets northwest, R. J. D. La. Mothe, associate rector, and Rev. J. Thompson, officiating. The interment was at Oak Hill. The honorary pallbearers were: Col. Arthur Herbert, Mr. R. E. Lee, Mr. William B. Gurley, Mr. Leigh Robinson Mr. John Seldon, Dr. D. C. Gordon, Mr. H. Rozier Dulaney, Mr. John. B. Larner, Mr. Robert Farnham, Mr. J. D. McChesney, Mr. Hutchinson, Mr. H. C. Burch, Mr. Mauchlin Niven, Mr. Wright Reebes and Major Albert Akers.

Mrs. Bertha Burch, who was forced to resign by Secretary Wilson, after the latter had received John Hyde's resignation and who had by rapid strides risen to a $1,800 place in the department, says: "I know absolutely nothing of any irregularity in the reports through personal knowledge. Neither did Mr. Hyde in my judgment. He resigned because the strain of restraining his office was unendurable in his state of health He went to England for treatment and rest. I know no more of corruption in the Bureau of Statistics than a person who never heard of the bureau." Mrs. Burch adds: "I may start a private crop reporting agency similar to Miss Giles successful bureau in New York. I know more about crop statistics and their reparations than anything else. I must earn a livelihood in some way."

Immediately after the session in the Police Court this morning a general removal was started to the new quarters on Fifteenth street, between D and E streets the building formerly occupied by the Bureau of Statistics. The old building will be demolished and a new structure erected.

The United States government has assumed charge of the yellow fever situation in the South. The decision was reached this morning after a conference between Secretary of the Treasury Shaw and Surgeon General Wyman, of the United States Marine Hospital Service. Surgeon J. H. Young, of the New Orleans district of the service, will continue to exercise control, being under the direct command of Surgeon General Wyman, who, at least for the present, will direct operations from Washington. "The State authorities," said Secretary of the Treasury Shaw, "having placed the matter in our hands, will be subordinate in the pending campaign. The government will be in full control. If we can keep the fever in the one place, I don't think the situation will be a graver one than has already developed." In order to assist in maintaining a strict quarantine, both on the river toward the north as well as toward the south and east, Captain Ross of the revenue cutter service has been detailed to proceed to New Orleans, and to take as many revenue cutters as may seem necessary to carry out his plans. He also will be under the instructions of the Marine Hospital Service. There is some criticism of the circulars sent out to all the postoffices in the South giving directions for the prevention of yellow fever. It is feared that they may be misinterpreted and that they may add to the excitement. There has been no call as yet for volunteer surgeons, although one may come later. The expenses of the coming fight will be borne by the government out of the general epidemic fund.

His left leg was severed from his body, while the other was badly crushed, and at the Emergency Hospital it was found that the injured boy was in a critical condition. Albert had been sitting on the front steps of his home playing with some other children, when his pet kitten darted through the doorway and ran into the street. Seeing the kitten standing on the car track, the little fellow ran to bring it back, but it appeared as though the kitten wanted to remain. So the boy then sat down in the middle of the track and began playing with his pet and was so engaged when he was run over by a car.

Opposes Government Ownership.

After an extensive trip in Europe, Senator N. B. Scott, of West Virginia, has returned to this country more than ever convinced that government ownership of railroads is not a success. When on the return voyage on the Wilhelm II. from Cherbourg, France, he went into the subject very extensively with an expert engineer who had spent two years in Australia for the express purpose of studying the same subject. Using the data and information thus supplied, Senator Scott has come to the conclusion that the government ownership plan is not desirable. "The debt of Australia is as big as is the debt of the United States," he said, "and leakages in one department illustrate how the others are run.

"Take the railroads for instance. The government places the control of the interests in the hands of a few directors. These men have not the personal interest that would be evidenced by a directorate composed of men who would draw dividends if the road were successful and would lose money in the contrary case.

"I understand it is extremely difficult even to secure a quorum at the directors' meeting. As a result of this lack of interest, things are run in a slipshod manner, accounts are not too carefully scrutinized and as a consequence much money is lost. It nearly always is the rule that the man whose pocketbook is the most nearly affected is the one who will look most carefully after the corporate interests in which his capital is invested. Private ownership makes for public prosperity."

Ablaze With Gasoline.

With his clothing in flames, B. M. Chalkin, proprietor of a scouring establishment, at Wilmington, Del., ran shrieking with pain down a crowded section of Market street yesterday afternoon, causing pedestrians to scurry right and left. Exploding gasoline set fire to his clothing and also to the plant.

Richmond Politics.

While no official information was given out by the grand jury in Richmond yesterday, it is understood that cases have been found in which the names of men were given in as having voted, who were, in fact, not qualified to vote. Enough evidences of fraud have been brought to light to thoroughly discredit the primary. The grand jury will not make its report until some time next week.

That there will be an independent ticket for city and legislative offices at the democratic State primary on August 22 seems assured, should the city committee decide not to order a new primary. The special grand jury which has been probing charges of fraud adjourned yesterday, after having examined hundreds of voters, who testified at the rate of four a minute.

While in that position one of them is said to have used the club over the officer's head. The policeman managed to get his revolver out of his pocket and fired, the ball entering Easley's left side. The dead man is a son of Col. Henry Easley, a banker of South Boston He belonged to one of the best known families in the State. Col Henry Easley, the father, is a member of Governor Montague's staff.

Today's Telegraphic News

The Peace Plenipotentiaries.

Oyster Bay, N. Y., Aug. 5—The booming of fifteen great guns in the shadow of Sagamore Hill today gave notice that the peace plenipotentiaries of Russia and Japan had been brought together by President Roosevelt Twenty-one of these cannon notes were for the President of the United States and nineteen each were given the envoys and their epuletted, order-blazoned suites as they climbed over the white side of the Mayflower, where they met in token of their resolve to end the struggle of blood in Asia. The Dolphin, the Mayflower and the Galveston were all at anchor near the Seawanaka yacht club association. The first named ships are to take the plenipotentiaries to Portsmouth as soon as the ceremonies of the day are concluded, and the Galveston is to act as the convoy on the trip. The Japanese plenipotentiaries, according to the State Department programme, were the first to arrive this forenoon, reaching Oyster Bay half an hour or so ahead of the Sylph, which brought assistant Secretary of State Peirce who introduced the envoys to the President in the Mayflower's cabin.

President Roosevelt was waiting for the envoys in the pretty cabin of the ship and Assistant Secretary Peirce, who had arrived in advance of the plenipotentiaries, made the formal introduction. The President laughingly said that he did not need an introduction to Baron Komura or Minister Takahira, for he had met them before. He shook hands, however, with them both and then greeted the other members of the party. After the introductions there was a pleasant chat in the cabin and then the Japanese retired to another cabin to make room for the Russian party. Count Witte, Ambassador Rosen and their suite had in the meantime arrived on board the Chattanooga. In their turn they left their ship, were rowed to the Mayflower and were given a salute of nineteen guns by the President's yacht. In their turn they entered the cabin, where they were introducted to the President, whom they already knew, and had a pleasant talk about the weather, the beauties of the surroundings and other subjects equally unlikely to cause future international complications. Then the two parties were brought together and there were speeches, more hand-shaking and more inocuous conversation. All hands then partook of a "stand up" buffet lunch which, it should be said, was the President's clever way of avoiding any questions of precedence which might have arisen had the President joined his guests at the table. After the luncheon the Japanese gentlemen said farewell with many protestations of good will and were ferried to the Dolphin. The President and Secretary Peirce soon after left the Mayflower in possession of the Russians and the ceremony was ended. The Dolphin convoying the Japanese, and the Mayflower with the Russians on board convoyed by the Galveston will reach Portsmouth on Monday morning.

Boston, Aug. 5.—A special to the Globe from Gloucester says that Russia will grant the demand of the Japanese if it is made for a heavy indemnity, but that she will collect this with interest at the close of the next war with Japan. The special says: "The Russian Embassy here expects that one of the conditions of the peace pact will be a stiff indemnity, which she will eventually concede; second, Russia expects to give up Sakhalien Island; third, the great issue will be on the status of Manchuria, and here is where the real contest will come. Russia, is fact, will seek to have the settlement so that in case she withdraws, which, of course, she expect to do, the status quo will be the same as before she entered upon it. "That is, it will be neutral territory, and not, as Japan seeks to have it officially made in the treaty of peace, virtually under a Japanese protectorate, as it was before the war to all intents and purposes essentially Russian. The money indemnity will not be so much of a humiliation as the Russians affect to believe. Some day, they say, it will be collected with interest from the presumptuous little brown men."

Mrs. Taggart's friends say she does not dread taking the stand. It's a day, they say she has been waiting for since the suit was filed nearly a year ago. "I know my friends have confidence in me, in spite of all these accusations," she said today. "Sympathy and good will expressed by Rev. H. Stauffer and his wife, whose church I have attended here, has touched my heart." In her story on the stand Mrs. Taggart will detail her version of all the incidents in the garrisons at Fort Thomas, Fort Sheridan and Fort Leavenworth, on which the charges against her are based. Then the story of her life in Cuba, San Francisco, Orrville, Wooster, and in the Philippines will be told. She will tell of the incidents in Manila and at Fort Leavenworth on which her own charges against Captain Taggart are based. Her complete statement, which is typewritten and in the hands of her attorneys, covers more than a hundred pages. It deals with her birth, and extends almost to the day of her trial. Tuesday, it is announced by Attorney Wertz, Captain Taggart will take the stand against his wife. Most of the testimony by army officers for Captain Taggart is in the form of depositions.

Norway and Sweden.

Birmingham, England, Aug. 5.—The Post says that it is generally understood in official and diplomatic circles that King Oscar of Sweden has written to King Edward in regard to the dissolution of the union between Norway and Sweden. In his letter King Oscar discusses the possibility of Prince Gustavus Adolphus, the Crown Prince Gustave, being allowed to succeed eventually to the thrones of both countries. Lord Lansdowne and King Edward have both replied to the letter. The eventual succession of Prince Gustavus Adolphus to both the thrones of Norway and Sweden has already been suggested. This could be accomplished by naming the Prince as the new King of Norway. As he is the line of succession to the throne of Sweden the two countries would again become united when he succeeded to Sweden's throne.

New Orleans, Aug. 5.—The citizens of New Orleans are in a happy frame of mind today. Husband Disappears With Three Children.

New Cumberland, Pa., Aug. 5.—Together with his three children, Isaac Lytle, of this place, has disappeared, and for one year the wife and mother, Mrs. Mazie Lytle, has heard nothing of them. No reason has been advanced for this happening, and Mrs. Lytle has been firm in her faith that news of their whereabouts, with an explanation of their absence, would be forthcoming on the morrow, but in this she has been cruelly disappointed. The utter disappearance of four persons at once is a rather unusual occurrence, and one almost certain to leave some clue. In this the present instance is peculiar, for inquiries made by sympathizing townsfolk have brought no cheering news to the bereaved mother.

Complaint From Germany.

Berlin, Aug. 5.—The Chamber of Commerce at Chemnitz, the principal seat of cotton weaving in the kingdom, is making a new complaint that German trade is being seriously injured through allowing American students to attend the technical schools which have been established for the furtherance of the textile industry. The association of industrialists intends to make an appeal to the government to take measures to protect them from American students.

It was long believed that he committed suicide. Woman Shot.

Margaret Moran, a girl of 20 years, was carried to the Protestant Hospital yesterday dangerously wounded. The story of the shooting is that she was asleep at the clubhouse of James Ferguson, at Sewell's Point, Norfolk county, early yesterday morning, when he and several companions were handling a shotgun on the other side of a thin partition. The gun was discharged and she was badly wounded. She ran to the door, fell outside and was unconscious when found. The shooting is alleged to have been accidental. Margaret Moran is the girl who, sick with pneumonia and penniless, was taken from a cart in an obscure street in Norfolk last winter. She was cared for until she recovered her health, when she declined offers of advice and assistance, saying that she could take care of herself. Her father is in Washington and her brother is imprisoned. She is in a precarious condition.

Knocked Senseless by Girl.

Annoyed by the persistent wooing of Abe Enzwag, a fellow-worker in a clothing factory, in New York, Jennie Katz, 17 years old, the only woman in a work room with 30 men, struck Enzwag with a wooden spool yesterday knocking him unconscious. Then she stabbed him with a pair of scissors. When he recovered his senses he caused her arrest on a charge of assault. She was taken to the Essex Market Police Court, where Magistrate Cornell held her in $500 bail for further examination today. According to the girl, Enzwag annoyed her so much that she finally decided to stand it no longer and she retaliated with such vigor that Enzwag was dead to the world for a while. The other men in the shop did not want her arrested and Policeman Entight, who was first at the factory, called for two more officers before he though it safe to take the girl away.

Flim-flammed.

Charles McLain, colored, of Charlottesville who went to Washington Thursday morning, was the victim of the envelope "flim-flam game." McLain was walking along Pennsylvania avenue when he met a well dressed colored individual who "took a fancy to him." The two spent some time together during which time McLain expressed a desire to obtain work. His "friend" told him about a position in a hotel, but said it would be necessary to make a good showing, and suggested his placing some money in an envelope. McLain handed $4 to the man, who put it in an envelope and deftly returned to Charles an envelope with nothing in it. It was not until yesterday morning that McLain looked into the envelope and found there was no money in it, only some scrap paper.

Whiskey Keg, Match, Bang.

An empty whisky barrel, a small colored boy, a lighted match and a blind horse formed a combination which nearly killed a woman in Richmond yesterday afternoon. The boy dropped the lighted match into the bung-hole of the barrel. An explosion that blew the barrel into bits followed. The blind horse dashed against a passing woman, knocked her down, then collided with a show-case. The woman was badly hurt and the horse had to be killed because of its cuts. The show-case was demolished.

The Only Way.

There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, rifting, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. W. F. Creighton & Co., 401 King street.

Fined Five Dollars.

Bernard Scott, colored, who was arrested in Baltimore late Thursday night at the instigation of Engineer Robert Jones, of the steamer Jane Mosely, and charged with attempting to blow up the steamer, was fined $5 and costs yesterday afternoon by Justice Leake, at the Southern police station. Mr. Jones testified that Scott was standing at the rail of the engine-room presumably peering into the hold out of curiosity. Suddenly, as he turned his back to give his attention to another portion of the machinery, he said he heard a sharp, crackling noise, and upon turning discovered Scott hastily drawing his hand from the cylinder of the engine. Observing that the exhaust valve had been removed, and cognizant of the fact that it could not have been removed by the jarring of the boat or by the throbbing of the huge boilers, Mr. Jones said that he was confident the negro was responsible for the act. The valve, he said, weighed in the neighborhood of 300 pounds, and it would have been an utter impossibility for it to have been removed from the hook without the most precise caution. Had the temporarily disabled machinery have been allowed to exist for any lengthy period, something would necessarily have had to give way, and it was only by the prompt action of the crew that a catastrophe was averted. Scott testified that he had been drinking and had descended to the lower deck in order to wash his hands. While passing the engine-room he said that he had stopped merely out of curiosity to observe how the machinery worked when under a high pressure. While leaning on the rail he said his arm slipped and he slightly pitched forward, his hand falling on the machinery. It was at this juncture, he said, that the engineer turned and saw his hand resting on the boiler. It was purely an accident, he remarked and could not have been avoided under the circumstances.

Police Court.

[Justice Julius Pelton presiding.]

The following cases were disposed of this morning:

William Hughes, arrested by Officers Henderson and Mayhugh charged with disorderly conduct, was fined $10.

William Hansburger and Benjamin Scrivener, arrested by Officers Knight and Henderson charged with disorderly conduct and fighting, were fined $2.50 each.

Joseph Hicks, arrested by Officers Mayhugh and Bell charged with disorderly conduct, was fined $5.

A white man, arrested by Officers Patterson, Mayhugh and Bell charged with permitting gambling on his premises, forfeited $20 collateral by failing to appear.

The Collector's Office.

It was recently stated in the Gazette that the last effort made by Congressman Slemp and Collector Summers to have the United States Internal Revenue office removed from Alexandria to Abingdon was such a failure that another such effort would not soon be made. It is now said that the government building at Abington is entirely unfitted for the revenue office and that if the office should be moved from the present commodious and well arranged building in Alexandria, all three floors of the Abingdon building would have to be used for the accomodation of the business of the office.

The Health of the City.

There are several cases of typhoid fever in Alexandria, but no more than usual at this season of the year. In fact cases exist in all cities at all times during the year. The authorities are busily engaged in cleaning the streets of the city, while the Alexandria Water Company has been flushing their mains and directing attention to the reservoirs. A few days ago the water bore an unpleasant taste, but by prompt action this has been eliminated. In the meantime it behooves housekeepers to see that sanitary conditions exist in and about their premises.

Death of Mr. Beach.

Mr. James W. Beach, an old and well-known resident of the First ward, died at his home on south Fairfax street at noon today. The deceased leaves a widow and six children. He had for some time been a sufferer from heart trouble. Mr. Beach was a tinner by trade and for many years was employed in the shops of the Southern Railway in this city.

Arrest of Car Thieves.

Detective Kennedy, of the Washington-Southern Railway, last night arrested William Bright and Edward Maples, both of this city, charged with robbing cars of that company. The prisoners were handcuffed together and kept in the signal tower at St. Asaph until this morning when they were turned over to the county authorities. It is said that the two men had taken a box of shoes from a car which was on Portner's siding, or the track leading from St. Asaph to the Portner Brewery.

An Italian Injured.

An Italian who was employed in railroad work near this city was seriously injured yesterday, one of his feet being mashed and other portions of his body lacerated. He was taken to the Alexandria Hospital in the ambulance, but being unable to speak English he could not impart his name or make any one understand how he was injured.

The Market.

There was another abundant supply of country produce in market this morning, but prices in the main were unchanged from those of last week. There was a plethora of tomatoes, and prices are consequently low. Green corn was a shade stiffer this morning, although the supply was fair.

Fight.

A fight took place yesterday evening at the corner of Cameron and Royal streets between Wm. Hansburger and Benj. Scrivener. The combattants were arrested by Officers Henderson and Knight. They were arraigned in the Police Court this morning and fined $2.50 each.

The Boat Club Canoes.

It is on the cards that the Old Dominion Boat Club proposes to take in hand the regulating of the use and handling of canoes or else eject them altogether from the boat house. The reckless overloading when ladies are passengers, and that, too, in the face of recent deplorable events; the entirely unnecessary risks taken by young men when steamers are stopping at the docks, and general want of judgment and caution is rapidly bringing reproach upon the club, and that something ought to be done, and that speedily, goes without saying. It is believed that the governors of the club have full power to act in the matter. L.

Grave Trouble Foreseen.

It needs but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by E. S. Leadbeater & Sons, druggists at 50c a bottle.

Special Request.

We request all persons interested in the Alexandria Business College, but more particularly all prospective students and patronizing friends who are contemplating an attendance or a substantial sympathetic influence toward said college, to call, write or 'phone Mr. or Mrs. L. P. W. Stiehl, Proprietors Spencerian Business College, Academy of Music Building, corner of Ninth and D streets, N. W., Washington, D. C., for full information about both colleges and the especially favorable rates of tuition if investigated through communication before September 1, 1905.

Cut Glass Differs

Almost as widely as precious stones. The scintillation, the beauty depends upon the cut. Mediocre cut glass loses the sparkle—the reason we don't keep it. We sell only the finest cut glass and charge no more for it than you will pay for the inferior. We have compared and know.

SATURDAY EVENING, AUG. 5, 1905.

Brutal Murder.

A brutal murder was brought to light at Bishop, in the extreme northern part of Washington county, Pa., late yesterday evening, when the dead body of Joseph Barr, aged thirty-six, a coal miner, was found lying in his room with the skull literally crushed into a shapeless mass. The authorities have absolutely no clew to work upon to secure the arrest of the murderer. Barr was employed by the Pittsburg Coal Company and had been confined to his bed for two weeks, the result of an accident in the mine. Last night Mrs. Barr went to the house of a neighbor, leaving her four children playing around the house, and when she returned at 8:30 o'clock she found her murdered husband, and is now raving crazy. The children knew nothing of the tragedy until their mother returned. Barr had been dragged from his bed after probably having been choked, as the condition of his throat showed, and then while held upon the floor was struck repeatedly over the head with some some heavy blunt instrument wielded with terrrific force.

Attempt to Blow Up Ship.

An attempt to blow up a ship in mid-ocean has been reported by Capt. C. Touze, of the French ship Asnieres, which has arrived at San Francisco from Swansea, Wales, loaded with coal. He left that port in January last, and six weeks later, when far out at sea, a dozen capped fuses, such as are used by miners to explode charges of dynamite, were discovered in the hold of the ship among the coal. Had one of the fuses become ignited by a shock in a part of the hold where the coal gas had accumulated the ship would undoubtedly have been blown to atoms. Two or three of them had exploded, but fortunately at points where there was no gas, and consequently no damage was done. The presence of the fuses among the coal was discovered only by accident, when during some rough weather men were sent down into the hold to level the coal and found them.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the oldfashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in in case of cholera infantum. For sale by Gibson & Timberman and W. F. Creighton & Co]

CANDIDATES.

Alexandria, Va., July 19, 1905

TO MY FELLOW CITIZENS OF ALEXANDRIA CITY AND COUNTY:

I beg to announce that I will be a candidate for the House of Delegates for the city and county of Alexandria subject to nomination by the democratic primary. It is well known to my fellow citizens that I was an aspirant for the honor of lieutenant-governor of Virginia, and that for reasons already made known to the public I felt constrained to retire from that contest. When I did so I had no intention of becoming a candidate for renomination and re-election to the House of Delegates, until urged upon me by a large number of my fellow citizens of the city and county of Alexandria, whose wishes and friendship I felt under obligations to regard. After mature consideration and yielding to what I believe to be the wish of a large body of my fellow citizens and friends representing every interest in the community, I have concluded to stand for re-nomination and re-election. I have been twice honored with the election by my people as their representative in the General Assembly of Virginia, and trust that my past record in that body will be to them a pledge and assurance of my future conduct should it be their pleasure to return me to this post of honor. In the event of my nomination and election I pledge myself faithfully to guard and defend every interest of the city and county in which I have spent my life and in which are centered all my affections and interests. I respectfully solicit the endorsement and support of the people whom I have represented to the best of my ability in the two last General Assemblies of Virginia. Very respectfully,

MEETINGS.

A CALLED MEETING of the stockholders of the COLONIAL LOAN AND DEPOSIT ASSOCIATION will be held at the offices of said association, No. 128 south Fairfax street, Alexandria, Virginia, on MONDAY, August 7, 1905, at 2 o'clock, p. m., for the purpose of considering certain resolutions of the Board of Directors of said association, adopted on the 17th day of June, 1905, in Havana, Cuba, which resolutions are as follows:

First. This company being now essentially a Cuban institution, with all its financial interests in Cuba, be it resolved that steps be taken to abolish the present legal necessity of holding the stockholders' meetings in Virginia, United States of America.

Second. In order to accomplish the object of the first resolution, and also to make some changes deemed necessary and expedient, be it resolved that it is deemed advisable that the Directors of the Colonial Loan and Deposit Association be authorized and empowered to transfer, by sale, consolidation or otherwise, to another company which is or may be established under the laws of Cuba by the directors of the Colonial Loan and Deposit Association, or by others, or by both, all the assets and liabilities of the old company other than the rights of or against its stockholders derived from the subscription to or possession of stock, said Cuban company to be formed on the basis deemed most expedient for securing more capital for loans and investments, and with the general powers of a trust company.

Third. Be it further resolved that it is deemed advisable that the stockholders of this company whose stock at the time of transfer is unencumbered and up to date in its payments, exchange their stock for paid-up and non-assessable stock of the Cuban company, receiving in stock of the said company an amount equal to the total loan fund credit of their respective certificates of stock, plus 1-6 of 1 per cent. for each month transpired since the first payment on same.

Fourth. Be it further resolved that the stockholders who now have loans may continue their monthly payments as at present, in accordance with the conditions of their respective contracts, until their loans are paid off, but that they may, if they wish, exchange their stock as the other stockholders, and recognize a straight loan in favor of the purchasing company.

Fifth. Be it further resolved that a special meeting of the stockholders of this company be held in Alexandria, Virginia, on the seventh of August, 1905, at 2 p. m., to take action on the above resolutions, and also to arrange all the details of transfer and change that may be deemed necessary and expedient.
